Ms Carolyn Jones
Rotary Club of Anchorage East, Alaska
Anchorage East

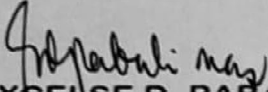

To the Rotary Club of Anchorage East, Alaska:

Last year, you generously provided us with US\$ 12,900 to provide an expansion to a current wastewater treatment system for a rural village being built by iHome, Western Visayas. We have previously provided you with receipts reflecting our receipt of the bank transfer in this amount.

Now, we write to advise you that we have completed that portion of our project that was supported by your funds although total completion of the construction for this village is still ongoing.

We truly appreciate your patience with us in completing this work and reporting to you. We encountered many unexpected challenges during the construction but we are pleased to report that we have successfully completed the expansion of the wastewater treatment system.

Best regards,

EXCELSE D. PABALINAS
Program Administrator
