

The \$1,500 would be applied as follows:

- Assuming 20 teachers are motivated to take the workshop, \$47.50 per teacher will be needed to cover the cost of substitutes. Total \$950
- Pretty Brainy legwork and negotiation with the PSD Office of Professional Development to get the PD approved or at least announced through the district. Alternate Plan: work with each principal to credit participating teachers for school/building-level PD. Total \$200
- Compensation for Pretty Brainy to plan, deliver, and run an assessment on a 2.5-hour PD: one workshop leader and one teaching assistant. Total \$350

In sum: the investment would be in compensating and crediting teachers for participating in the PD. Pretty Brainy team would be minimally compensated for the work.
