District Grant # P-2267

Rotary Club: Craig

Project Title: Sewing Training Center

Project Description:

1. Briefly describe the project. What was done and where did the project activities take place? Explain how the beneficiaries and other community members were involved?

Children attending the four schools in the Botanical garden area of northern Honduras are required to wear uniforms in order to attend school. The population in that area is very poor and the cost of uniforms is from \$10 - \$15. Since the cost is prohibitive for many families we want to create a sewing center where families could make their own uniforms.

This would be set up as a trial vocational training center to not only make uniforms but to provide a way for the families to make and sell products. The Craig club will purchase sewing machines, supplies for the machines and furniture. The furniture will consist of tables, chairs, storage units, lights and ac units. The training will be provided by INFOP(The National Institute of Professional Formation). This organization was established in 1972 to develop Honduras growth socially and economically by providing training and certification to deal with the challenges of modernizing Honduras.

The building where the training center will be housed will be an addition to the Josefa Lastiri Morazan school being built through a grant by the Greeley centennial club. The contact in the area is the family of a teacher at the Dos Rios Elementry school in Eaton. This will be the third project in the area that has been implemented.

2. How many Rotarians participated in this project? 4
3. What did they do? Please give at least two examples.

The Craig Rotarians wrote the grant, made the purchases of the equipment and followed up with the Greeley Centennial Rotarians as to the progress of the project.

Two Greeley Centennial Rotarians went down to Honduras and helped install the equipment.

4. How many non-Rotarians benefited from this project? 100

5. Who are the beneficiaries and what is the expected long-term community impact of this project?

Adults and 7th - 9th students will be trained in how to sew. They will be able to make uniforms for a small fee for all students. In addition to other projects they will be able to work on.

6. If a cooperating organization was involved, what was their role?
