

# **District Grant *Final Report* D5495** for District Grants completed in 2018-19 Rotary year.

**Due April 30, 2019** Please type all answers. Sign, scan and upload this form to the project website with accompanying receipts: [www.matchinggrants.org](http://www.matchinggrants.org)

**Project Number (MatchingGrants.org) #P-2288**

**Person completing this form: Carol Anderson**

Rotary Club: Rotary eClub of the Southwest Club No.

Project Title: School Supplies for STEAM. Science, Technology, Engineering, Art and Math.

## **Project Description**

1. Briefly describe the project. What was done (in 100 words or less)?  
Teachers, Administrators, and our committee from the Pendaries Community met to determine the most effective way to use our funds to create the needed centers for each classroom. We then researched project based materials and equipment. Once determined we researched prices, and ordered or purchased from local vendors the needed materials. Once received we helped teachers install and implement the projects and learning centers.
2. When (dates) and where (city, state and country) did project activities take place? The project was based in Sapello, New Mexico, Mora County. Much of the purchasing was done on line and in Albuquerque, New Mexico. Dates July 25, 2018 through January 9, 2019
3. Who were the beneficiaries? The Students benefit from this project, not only this year but throughout there Elementary years. Each projects is meant to be built and enhanced through the years. The teachers and the schools benefited, as these are long term based projects the can be built on from year to year.

How *many* Rotarians participated in the project? There were two local Rotarians.

4. What did they do? Please give at least two examples. Worked with staff to determine needs. Researched materials and projects and prices. Delivered materials. Helped assemble centers and project based activities.
5. How many non-Rotarians benefited from this project? The 90 Students and the 9 teachers are direct beneficiaries. In the long run the community, as these students become more proficient students, and eventually leaders of their community.
5. What are the expected long-term community impacts of the project? These project based learning activities will be usable, with additions of the basic supplies, each year. This project based learning teaches life long skills of research, trial and error, and a view into all the science, engineering, technologies, and math. Successful students, become successful adults, and leaders.
6. If a cooperating organization was involved, what was its role? They worked hand and hand with me, researching, ordering, purchasing and delivering materials. They are part of this rural community, spring and summer.

**Financial Report** *(Use second page, if needed. District must receive receipts of all expenditures) Total Expenditures, \$5,716.72*

Receipt #1- Materials for students Supplies	\$ 536.42
Receipts # 2 through 5. White Boards, Markers, Erasing and cleaning materials for each center.	\$ 931.03
Receipts #6 through 8. Learning Centers	\$ 891.00
