

## **Make an impact with your gift**

Eighteen-year-old Mary moved to Manhattan, NY, to join the Army. She traveled and lived all across the country, but when her mother got sick she moved back to West Virginia and hasn't left since. She now lives in her childhood home with her two beloved dogs.

Her house was built in the early 1900s and is a historical house in Hinton. Though Mary is an amazing and capable woman, she has a lot of health issues, and the repairs needed on her home were too big for her to handle alone.

Last summer, ASP was able to repair her roof, add floor coverings in her kitchen, patch the ceiling in her dining room, put up drywall and sheathing

where there had been water damage, and add siding around the home.

Our volunteers loved working for Mary because she exudes warmth and welcomes everyone into her home without question. She has a beautiful spirit and energy like no other.

This summer, ASP will repair hundreds of homes just like Mary's. Will you give today to make a big impact?
