ROTARY DISTRICT GRANT APPLICATION

Areas of Focus (Check all that apply, if any)

- Peace and conflict prevention/resolution
- X Water and sanitation
- Basic education and literacy

- Disease prevention and treatment
- Maternal and child health
- Economic and community development

Project Summary: Rotary Club of Red Lodge has historically worked with the City of Red Lodge to build, maintain, and improve access to parks in our community. Rotary Club is working alongside the 2018 Rotary Youth Leadership Award (RYLA) camp attendees to establish a water bottle filling station in downtown Red Lodge, Montana. The goal of this project, Refills Not Landfills, is to reduce plastic waste in Red Lodge by reducing our reliance on plastic water bottles, and to provide the citizens and travelers of our community with clean, fresh water.

Project Description: In the fall of 2018, the Recycling Center in Red Lodge experienced some major changes; one of which forced the center to stop accepting plastics. In an effort to reduce plastic waste in the Red Lodge community, four RYLA students worked with the Rotary Club to identify a project that would reduce our reliance on single use plastics. Installing a water bottle filling station in downtown Red Lodge was identified as the best option. The Refills Not Landfills project kicked off in the fall of 2018 and students began fundraising and presenting the project to school and community groups. Red Lodge Rotary presented the group with \$200 of start-up money to get the project off the ground. Since then, the RYLA group has collaborated with numerous community partners and businesses to raise money for the project.

The funds received from District Rotary of Montana and the Rotary Club of Red Lodge MT were used to partially fund the water filling station (Northwest Pipefitters - \$3940.50), material costs for the Rotary logo sign (\$250.00), and installation costs (High Country Equipment - \$8087.00).

The completion of the project was celebrated in mid June 2020 at a ribbon cutting ceremony attended by RYLA students, Red Lodge Rotarians, and city officials. The Carbon County News (our local paper) highlighted the event on their front page.

Ribbon cutting ceremony attending by local Rotarians, RYLA students, and city officials.

Four students who attended RYLA Camp in the summer of 2018 returned home to their community inspired to make a difference. After receiving \$50 each from Rotary of Red Lodge, these students pooled their money and started planning a project that would not only reduce the use of single use plastic bottles and plastic waste in Red Lodge, but also provide clean drinking water to the public. These students have worked closely with community businesses and organizations. They have presented and promoted their project to the Red Lodge City Council, Red Lodge Chamber of Commerce, Public Works Department, Garden Club, Carbon County Resource Council, Parks, Trees, and Recreation Board, Green Team, and Interact Club. The project has been approved by the Montana Department of Environmental Quality, the Montana Department of Labor and Industry, and the Montana Department of Public Health and Human Services. The water station will be free and available to the public year round. The image above shows the RYLA group presenting at the annual meeting of the Carbon County Resource Council.

Project Budget

| Project Fu | ndraising To-Date | Dollar Amount | | | | |

Budget Documentation

PRODUCT DESCRIPTION/DETAILS

Outdoor Bottle Filling Stations ideal for educational campuses and recreational areas. Powder-coated exterior over a corrosion-resistant stainless steel type-316 base material to provide protection from the elements.

- Corrosion-resistant base material provides the ultimate protection from the elements.
- Heavy-gauge construction with tamper-resistant screws that resist stains and corrosion.
- Laminar flow provides clean flll with minimal splash.
- Fully sealed, freeze-resistant system minimizes ground water contamination and prevents drain water from mixing with fresh water.
- · Available in 12 stunning flnishes.
- · Ideal for outdoor use.
