Number of female students at the college:

Totally 322 girls are attending their classes at the Faculty of Education

Why do the girls need restrooms?

In the past, there were not any female students at the Faculty of Education. Submission of the girls to the college took place at the time of Mr. Karzai. And, on the faculty campus, for the girls, a hostel was built by the government of Japan. All the girls could use the toilets located in the hostel. Now, the number of girls increased so the toilets provided are not enough. And the girls living in the hostel do not let the other girls to use their restrooms though the college has no facility which the girls are in dire need.

Sincerely,

Prof. Zakera BabakerKhil

Dean of the Faculty of Education
