

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries?

We purchased with the matching grant for the Teen Parent program a new self-cleaning double convection oven/gas range and 2 microwave ovens (which among other things will be used to warm bottles while the parents are otherwise occupied. We also purchased an IPod which they are using in the classroom for the students who are taking a math class.

2. How many Rotarians participated in the project?

A majority of club members participated in the project. Sharun Carlson led the project and acquired the appliances. The members took part in the holiday luncheon.

3. What did they do?

Shopped with Mrs. Katy Placido the Director of the Teen Parent Program for the appliances at Home Depot and provided the students with a holiday luncheon with Santa Claus.

4. How many non-Rotarians benefited from this project?

32 students

5. What are the expected long-term community impacts of the project?

The students are learning to use a high-tech gas range, creating nutritional meals and planning budgets for their children and their boyfriends. Some of these students will marry before they leave school so the better their knowledge in how to manage life skills the better able they will cope with real life.

6. If a cooperating organization was involved, what was its role?

NO
