

THANK YOU

Dear Rotary Club of Boise,

Thank you for your support of One Stone and our Project Good program: Tinker Camp! Tinker Camp is a three day summer camp for 3rd and 4th grade students in the greater Boise area. Campers are paired with a high school buddy for three days of STEM adventures. Tinker Camp is completely free to participating families, ensuring every student has access to high quality learning experiences that help prevent the "summer slide." Engaging experiences from past Tinker Camps including excursions to the T. C. Bird Planetarium, Boise WaterShed, the ReUseum, and Discovery Center. These adventures make a huge impact on young campers, but the most transformational moments happen between high school students and young buddies- sharing excitement for learning.

Tinker Camp is planned by a student team with facilitation help and coaching from One Stone staff and volunteers. The Tinker Camp planning team will begin meeting in March to get ready for a July camp implementation. No Rotary Club funds have been spent thus far. We are looking forward to our in-person meeting with the Rotary Club of Boise on June 18th.

We are so grateful to have community partners like you that believe in our mission to make students better leaders and the world a better place. Thank you for your continued support of One Stone and belief in the power of students.

Sincerely,
Team One Stone
