Rotary Club _Rotary Club of Chicago-O'Hare_____ **District Grant #** _P-2788_____

Project Title _Leyden High School Scholarships_____

1. Briefly describe the project. What was done, when and where did project activities take place, and who were the beneficiaries? List any changes that might have occurred.

Each year the Rotary Club of Chicago-O'Hare through its foundation provides one scholarship valued at \$4,000 and four to six scholarships, each valued at \$3,500, to graduating students of Leyden High School District 212 to assist them in attending an approved college, university or vocational school.

Students complete an extensive application and are evaluated based on several criteria including how well they have demonstrated traits that reflect the ideals of Rotary and their financial need (most applicants come from low-income families and are faced with paying for college by themselves). Applications are reviewed by a committee made up of Club members and a shortlist of finalists is determined. The shortlisted students are then interviewed in person by the committee.

Scholarship winners are notified in mid-March of each year and the scholarships are applied to tuition for each winner's first year of higher education, with payments made directly to the student's college or university. This project relates to scholarships disbursed during Rotary 2019-2020 fiscal year.

2. How many Rotarians participated in the project?

Five Club members participated in the project.

3. What did they do? Please give at least 2 examples.

Club members reviewed submitted scholarship applications, selected a shortlist of candidate recipients, participated in in-person reviews with the candidates and participated in the selection of the final scholarship recipients.

4. How many non-Rotarians benefitted from this project?

Six graduating students from the Leyden High Schools District 212 benefited from the scholarships.

5. What are the expected long-term community impacts of the project?

As scholarship recipients are from low-income families, these scholarships help provide the students the means to attend college or university. In many cases, the scholarship is a determining factor in whether the student can continue their education. Upon completion of their education, many of the students intend to return to the Leyden community to provide leadership and service to the community.

6. If a cooperating organization was involved, what was its role?

N/A

7. How did you share the news of your project?
