

The third grade students were presented dictionaries by the Rotary. Rotary is a service organization that is promoting literacy by offering third graders in the area their own dictionaries. Rotary members, Joe Mlinar and Dave Harrington of St. Paul, gave each child a dictionary and spent time in the classroom having students look up such words as friendship and service. Since receiving the dictionaries, the students have used them in Language and Science classes. Mrs. Harrington and the third grade students appreciate the Rotary's gift!
