Subject: Funding for ADA accessibility compliance

Dear Sirs,

The Arnold Plaza project is at a crucial stage. ADA compliance germane to receiving occupancy of our rooms is mandatory prior to approval of usage. We have satisfied certain construction criteria; however, we need additional funds to help us reach our goal.

On the south east side of the building a handicap accessible power actuated door must be installed as well as a handicap parking stall and all striping. We are in desperate need of approximately \$4,000.00 to help us comply with ADA requirements. Bids are on hand from our general contractor.

Thank you for your consideration.

John Trylch
