Fire Truck Report to Friends BOD

10/6/2020

**Recommendation:** Friends raise \$9230 to cover the cost of paint and bodywork to date and in the future.

A meeting was held with Doug Walters on 10/5/2020 to discuss past and future body and paint work. Doug wants to complete the project, with or without money. He said he would forego paying projects to get it done. Doug estimates at least 100 hours of remaining paint and bodywork needed.

As noted in an earlier message, the restoration team has ruled out asking Doug to do the remaining work on a *pro bono* basis. Our understanding was to pay him for body work, while he contributes the painting. The body work has amounted to about 80% of total labor.

***August 31-September 7:***

Days:	8
Hours per day:	8
Total hours:	64
Bodywork hours:	52
Hourly rate:	\$75
Value of all work:	\$4800
Value of bodywork:	\$3900

Payments:

Gift certificates	\$110
Cash	\$800
Total payments:	\$910

Total owed Doug for August and September 2020: \$3900 - \$910 = \$2990

***Future work***

Days:	13
Hours per day:	8
Total hours:	104
Bodywork hours (80%):	84
Hourly rate:	\$75
Value of all work:	\$7800
Value of bodywork:	\$6240

Grand total for the project: \$4800 + \$7800 = \$12,600

Total needed to square up with Doug through project completion:  
\$2990 + \$6240 = \$9230.

***Doug's in-kind contribution would be: \$12,600 - \$9230 = \$3370.***
