

Profile

INTRODUCTION

Touch Kibera Foundation (TKF) was formed with the specific purpose to protect orphans and abandoned children by providing a safe environment where they will be sheltered, nurtured and educated in ways that build competence, confidence and independence. TKF focuses on providing children and youth in Kibera with quality education, equal opportunities, and an environment to develop holistically. By providing the right combination of educational, extracurricular, and financial support to poor and orphaned children as well as youth, TKF aims to inspire dreams among those who otherwise do not stand a chance. Its current focus is restoration of peoples' hope through economic recovery, capacity building, and psychosocial support for the marginalized children especially orphans. These shall be through basic Educational training, practical skills in technical institutions, promotion of hygiene and sanitation in basic primary health care and sport promotion.

MISSION

The primary mission of Touch Kibera Foundation is providing the orphaned, destitute, outcast, unloved, needy, sick, handicapped persons, with a home, love, happiness, physical, mental, emotional and spiritual nourishment, the highest level of educati on possible, and a hope for a bright future.

VISION

The vision of The Touch Kibera Foundation Children's Centre Project is to one day have a self sustaining community consisting of a children's home, orphanage, school, training center, women's shelter, elderly person's home, hospital, library, technology center, shops, and other facilities that help a community to succeed. Our vision is to one day establish such communities all over the world

TOUCHING LIVES ONE AT TIME

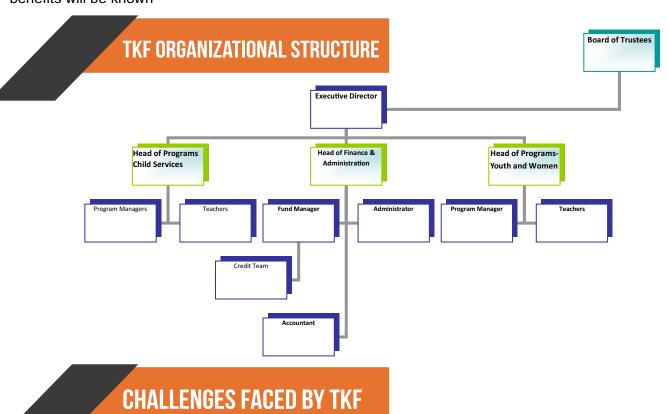

MONITORING & EVALUTION

The project team works closely with the beneficiaries, who are the children, local administration, and the schools where these children will go, and their guardians, and schools within and around Kibera. There shall be mid -term evaluation and end of project evaluation. The project stakeholders will be involved in developing the evaluation tools. However, TKF's Homework will be monitored on daily basis thus the benefits will be known

The problem of OVC children is acute due to urbanization and industrialization. These orphan children are left without care and support. These children are involved in rag picking; pick pocketing & participating in anti social, criminal activities. TKF like other established institutions faces several challenges, among the challenges being:

- Limited funds i.e. The centre has been receiving many children overtime and the funding has
 increasingly become a challenge, we hereby request kindly for Donors to help us mitigate these
 underlying challenges.
- Lack of modern technology i.e equipment TKF lacks computers that can be useful in keeping track of the children records, basic accounting, Networking etc.
- School Fees; due to a growing pop ulation of the orphaned children joining the center, paying school fees has been a big challenge. We call upon well-wishers to help identify their area of help to aid the less fortunate obtain basic education.
- Health and Diseases -In cases of disease infect ion, sporadic outbreaks, care and tendering becomes a major challenge settling the hospital bills, quick response to disease attacks. We request kindly the stakeholders, Aid Agencies and well -wishers to aid in healthcare provision, creation of a TKF health dispensary to help in emergence of such health challenges.
- Food, Shelter, clothing; Electricity and water bills sometimes rise to a high scale and we face a
 threat of disconnection this is sometimes brought about by high population of children leading to
 increased energy needs, and or erroneous calculations, limited funds, Lack of income generating

activities by the center, food, shelter and clothing poses a bigger challenge to the ever growing children population.

SOURCING OF FUNDS

Touch Kibera Foundatio n is looking for separate entities to sponsor and fund the proposed budget above. Each Budget Item will be dedicated to the sponsor who will be allowed to choose its name and will be responsible for the building and monthly costs of the project. They can choose to be as involved in the project as they wish.

We are looking to gain sponsorship and support from international donor agencies and charities for the costs of building and maintaining the community centre. We will run fundraising events in Australia, Canada and America and will also have monthly supporters helping to fund our monthly maintenance costs.

Funds will be generated locally via several small projects on the land i.e the poultry farm. Crops will be grown to cut down on costs and to become as self reliant and sustainable as possible.
