

Windsor Rotary Club – Little Free Library Grant Update, Oct. 2021

As of Oct. 31, 2021, the Windsor Rotary Club has installed all 12 of the Little Free Libraries that the club had committed to building and installing. The 12th Library was installed on Birch St. in Windsor with beautiful Windsor Lake as a backdrop.

The final steps are to register the last library with the Little Free Library organization, purchase more labels for future book donations and order more copies of Raising Readers. At that point we will be able to close out the grant.

We will entertain building and installing more libraries if our financing allows. The libraries have been very popular in the community.

Here are 2 photos from the last installation.
