

ROTARY CLUB OF
Fairbanks Golden Heart

Please pass out these reflectors to everyone in your school with a reminder that vehicles can't always see the people walking along the side of the road or sidewalk. The reflectors are larger in the hopes that they will catch more of the light of the passing vehicle. Pedestrian safety is a real concern especially in the dark of a Fairbanks winter.

One of our members brought the issue of winter pedestrian safety to our Rotary Club. Melody was concerned with children walking to school or waiting for the bus with no reflective gear. We found these reflective tags that can be easily attached to a backpack or coat. We purchased 2700 tags to distribute to multiple schools throughout the City of Fairbanks. We appreciate your help in distributing these within your school. Thank you.

Please stay safe!
