Project Description

1. Briefly describe the project outcomes. What was done (in 100 words or less)? In order to support the needs of young people in our community, bike helmets and dictionaries were purchased and distributed. Bike helmets were given away at the annual back to school community event that also features required vaccinations, clothing for students, and other supports. Dictionaries were distributed to each 3rd grader in Lake Havasu City across 9 schools. Rotarians met with students and demonstrated how to use the dictionary.

When (dates) and where (city, state and country) did project activities take place?

August of 2023 for helmets and throughout October 2023 for dictionaries – Lake Havasu City, AZ

Who were the beneficiaries? Children and students were the direct beneficiaries. Teachers benefited by having students with dictionaries and parents benefited by having tools for literacy and safety items.

2. How many Rotarians participated in the project? 45
3. What did they do? Please give at least two examples. Rotarians distributed helmets, which included having a table set up and fitting children for helmets. They also distributed dictionaries to 3rd grade classrooms and taught students to use a dictionary, asked about what students were learning, and taught them about Rotary.
4. How many non-Rotarians benefited from this project? 500

5. What are the expected long-term community impacts of the project? Students are safely using their helmets and have support for literacy skills. Rotarians are connected with young people across the community.

6. If a cooperating organization was involved, what was its role? All schools – provide time for Rotary, Lake Havasu Community Health Foundation – organized event for back to school
