

Recap of Students' Progress

Guatemala College Tuition Grant

8/2/23

College semester has resumed and through the gifts of private donors we were able to pay for this semester July – November 2023. This grant of \$4000 will pay for the tuition, internet access and public transportation to the colleges for the January – May 2024 semester. Of the five students, two are studying at an engineering university and the others at a business administration university. All students have grades for the past two and ½ years of A or B. Two students have jobs which help support their families.
