ProduceGood Mission

Build an active and engaged community committed to finding sustainable solutions to alleviate hunger, reclaim and repurpose waste and promote the health and well-being of all.

Dear Eco Rotarians of Solana Beach,

It is a distinct pleasure to be supported by the Solana Beach Eco Rotary. We appreciate the opportunity to be associated with other eco-positive groups and we deeply appreciate the club's volunteerism in support of our 19 weekly food recovery events.

We thank you for the \$1,000 donation. Support from local San Diego organizations like yours helps us ensure that edible surplus produce stays out of landfills to instead feed thousands of food-insecure individuals and families throughout the county with 416,000 pounds recovered and redistributed in 2024.

Thank you for helping to keep our edible food recovery programs thriving and our mission moving to reduce food waste and hunger.

Warm regards,

Alexandra White
Executive Director/Co-founder
