Presentation On
Nepal-Community School Support Project

Nepal - Community School Support Project

(Supporting the earthquake affected schools)

Background:

Nepal is a largely mountainous, predominantly agricultural country with around US\$400 per capital income. The literacy rate of Nepal is 65.9%. Earthquake occurred on 25th April 2015, destroyed around 7553 schools creating the problem in whole education system of Nepal. Till date only about 47.83 % school were reconstructed & 22.75% under construction .Those schools constructed also not able to smoothly run the classroom due to lack of schooling materials like desks & benches, computer lab , Library, Science lab etc.
