

Basic Information

Grant title

Give children hope for life! Equipment for Regional Center of Children Oncology and Hematology [L1]

Type of Project

Humanitarian Project

Address community needs and produce sustainable, measurable outcomes

Primary Contacts

Name	Club	District	Sponsor	Role
Viktor Vovk	Cherkasy	2232	Club	Host
John Fulton	Miami Brickell	6990	District	International

Committee Members

Host committee

The committee will include at least three members from the host sponsor.

Name	Club	District	Role
Olga Ialovenko	Cherkasy	2232	Secondary Contact
Anzhela Boyko	Cherkasy	2232	Secondary Contact

International committee

The committee will include at least three members from the international sponsor.

Name	Club	District	Role
Heather Waldron	Miami Brickell	6990	Secondary Contact International
Robert Richter	Miami Brickell	6990	Secondary Contact International

Do any of these committee members have potential conflicts of interest? Yes/No

No

Project Overview

Tell us a little about your project. What are the main objectives of the project, and who will benefit from it?

The funds from this grant will be used to procure much needed medical equipment, training, and supplies for the Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine, to replace outdated and failing equipment which may not otherwise be repaired or replaced. The equipment is need to provide precise administration of aggressive chemotherapy drugs to children suffering from cancer and cancer related diseases. This grant will also provide for the training of medical personal at the Center in the proper operation and maintenance of the medical equipment purchased, and the purchase of supplies required to allow for operation and maintenance of the medical equipment for at least five years. As such, this grant will provide for the proper treatment for approximately 1,250 children suffering from cancer and cancer related diseases over the next five years.

Areas of Focus

Which area of focus will this project support?

Disease prevention and treatment

Measuring Success

Disease prevention and treatment

Which goals will your activity support?

Improving the capacity of local health care professionals;Enhancing the health infrastructure of local communities;Preventing physical disability resulting from disease or injury

How will you measure your project's impact?

Measure	Collection Method	Frequency	Beneficiaries
Number of individuals reporting better quality of health care services	Direct observation	Every six months	100-499
Number of medical and health professionals trained	Direct observation	Every six months	1-19

Do you know who will collect information for monitoring and evaluation? Yes/No

Yes

Name of Individual or Organization

Dr. Victor Paramonov, Chief Physician and Medical Director, Cherkasy Regional Oncologic Dispensary

Phone

Cell: +38(096)307-88-84 // Fax: +38(0472)37-01-00

Email

paramonov.w@gmail.com

Address

18009, Cherkasy, Ukraine, Mendeleev Street 7

Briefly explain why this person or organization is qualified for this task.

Dr. Paramonov is the Chief Physician and Medical Director of the Cherkasy Regional Oncologic Dispensary, which oversees operation of the Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine. Dr. Paramonov is also the Chief Oncologist in the Cherkasy region, and as part of his role as Chief Oncologist, he conducts statistical analysis and is responsible for improving survival and mortality rates from oncologic diseases, including instances of childhood cancer.

Location and Dates

Humanitarian Project

Where will your project take place?

City or town

Cherkasy

Province or state

Cherkasy Oblast

Country

Ukraine

When will your project take place?

2019-03-01 to 2024-03-01

Participants

Partners (Optional)

List any other partners that will participate in this project.

None

Volunteer Travelers (Optional)

No.	Name	Email
-----	------	-------

Describe this person's role in the project.

Host sponsor confirmation of volunteer travelers

Rotarian Participants

Describe the role that host Rotarians will have in this project.

Dr. Olha Paliychuk, M.D., Ph.D, is the member of the Rotary Club of Cherkasy, she is a practicing oncologist, an expert of the Onco Gynecology Association of Ukraine, has been working at the Cherkasy Regional Oncologic Dispensary for more than 20 years, and has been a consultant for the Regional Children Oncology

and Hematology Center for many years.

On behalf of the Rotary Club of Cherkasy, Dr. Paliychuk will work closely with Dr. Oksana Gluhareva, Head of the Regional Center of Children Oncology and Hematology and Chief Hematologist of Childhood in the Cherkasy Region, in overseeing the installation of the medical equipment purchased through this grant, as well as participate in the training of personnel in the proper operation and maintenance of the equipment, along with other members of the Rotary Club of Cherkasy.

Because of Dr. Paliychuk's familiarity with the Center and the challenges it faces, her Rotary Club, the Rotary Club of Cherkasy is the host Club and regularly participates in volunteer and sponsorship projects designed for children suffering from malignant tumors and blood cancer at the Center. Members of the host Club will continue to volunteer support to the Center as needed in implementing this project and visiting with the children who are there receiving treatment.

Host Club members will also work with Rotarians from other Clubs and Districts, including International Rotarians, to develop educational brochures for distribution in the local language regarding the warning signs of childhood cancer, the benefits of early detection, and the treatment options available for the treatment of childhood cancer and cancer related diseases at the Regional Children's Oncology and Hematology Center as a result of the efforts of Rotarians both locally and around the world.

Host Rotarians will work with International Rotarians to educate Rotarians from different countries about the need to join together to combat childhood mortality from the various forms of cancer, including malignant blood diseases. Perhaps one day, Rotary official motto will be "Working Together Against Childhood Cancer" - every child, regardless of age, host country, skin color, religion and financial resources of his or her parents deserves the chance to live, though world class diagnosis and treatment!

Describe the role that international Rotarians will have in this project.

International Rotarians provided assistance in preparing this grant application, provided partial funding, and solicited other Rotary Clubs in District 6990, and elsewhere, to obtain commitments for the additional funding needed for implementation of this project for purchasing medical equipment and supplies for the Regional Children's Oncology and Hematology Center, in Cherkasy, Ukraine.

International Rotarians will assist in developing educational brochures for distribution in the local language regarding the warning signs of childhood cancer, the benefits of early detection, and the treatment options available for the treatment of childhood cancer and cancer related diseases at the Regional Children's Oncology and Hematology Center as a result of the efforts of Rotarians both locally and around the world.

International Rotarians will assist the Host Rotarians with the transfer of funds to the suppliers of equipment and supplies, as well as with record keeping and reporting on this project to Rotary International.

International Club members will also work with the Host Rotarians to develop educational brochures for distribution in the local language regarding the warning signs of childhood cancer, the benefits of early detection, and the treatment options available for the treatment of childhood cancer and cancer related diseases at the Regional Children's Oncology and Hematology Center as a result of the efforts of Rotarians both locally and around the world.

International Rotarians will work with Host Rotarians to educate Rotarians from different countries about the need to join together to combat childhood mortality from the various forms of cancer, including malignant blood diseases. Perhaps one day, Rotary official motto will be "Working Together Against Childhood Cancer" - every child, regardless of age, host country, skin color, religion and financial resources of his or her parents deserves the chance to live, though world class diagnosis and treatment!

Budget

What local currency are you using in your project's budget?

The currency you select should be what you use for a majority of the project's expenses.

Local Currency
UAH

U.S. dollar (USD) exchange rate
28

Current Set On
03/09/2018

What is the budget for this grant?

List each item in your project's budget. Remember that the project's total budget must equal its total funding, which will be calculated in step 9. Every global grant includes a match of at least \$15,000 from The Rotary Foundation's World Fund. Project budgets, including the World Fund match, must be at least \$30,000.

#	Category	Description	Supplier	Cost in UAH	Cost in USD

8	Cash from Club	Lviv International	1,000.00	50.00	1,050.00
9	District Designated Fund (DDF)	6990	11,525.00	0.00	11,525.00

*Whenever cash is contributed to the Foundation to help fund a global grant project, an additional 5 percent is applied to help cover the cost of processing these funds. Clubs and districts can receive Paul Harris Fellow recognition points for the additional expense.

How much World Fund money would you like to use on this project?

You may request up to 22,438.00 USD from the World Fund.

22438

Funding Summary

DDF contributions: 13,025.00
Cash contributions: 18,826.00

Financing subtotal (matched contributions + World Fund): 54,289.00

Total funding: 54,289.00

Total budget: 54,289.00

Sustainability

Humanitarian Projects

Project planning

Describe the community needs that your project will address.

The Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine was opened in May 1993 in response to the rapid increase in the number of children being diagnosed with oncologic and related blood diseases in the wake of the Chernobyl disaster. The Regional Center of Children Oncology and Hematology in Cherkasy currently has 25 infusion pumps which are 13 years old, and are no longer reliable enough to assure accurate administration of the aggressive chemotherapy drugs often required to effectively treat the children at the Center. The Center also has two syringe pumps which were manufactured in 2004, and 22 infusion volumetric pumps, most of which were manufactured in 2005. The syringe and infusion volumetric pumps are also no longer reliable enough to assure accurate administration of the aggressive chemotherapy drugs to the children requiring them.

The Center has 30 regular patient beds, and an additional 4 single-bed wards for children requiring more aggressive chemotherapy. The Regional Center of Children Oncology and Hematology is the only facility providing treatment to children suffering from cancer and cancer related diseases in the Cherkasy Oblast.

This grant is necessary to provide more efficient and effective medical treatment to children suffering from cancer and cancer related diseases in and around Cherkasy, Ukraine. Prior to the Chernobyl nuclear disaster in 1986, the instances of childhood cancer in the Ukraine were few and far between. Currently, over 600 children under the age of 18 with tumors and/or suspected blood disease are examined each year in the Cherkasy region alone. The Regional Center of Children Oncology and Hematology in Cherkasy treats nearly 250 children with cancer and/or cancer related diseases each year, with 35 to 40 new children being diagnosed with cancer each year. Lack of proper medical equipment prevents the ability of physicians at the Center to provide high-dose aggressive chemotherapy drugs required by some treatment protocols, which prevents giving a chance for recovery to a large number of extremely sick children each year.

The Regional Center of Children Oncology and Hematology in Cherkasy also provides palliative care to about 8 to 10 children each year, as there is no other facility in the Cherkasy region for palliative care for oncological and hematological patients who require permanent analgesia. This grant is also necessary to acquire the medical equipment required to properly administer patient-controlled analgesia.

How did your project team identify these needs?

More than 600 children having tumors, suspected cancer and/or blood diseases are examined yearly in the Cherkasy Oblast in the Ukraine each year. Of these, about 240 children were diagnosed with cancer in 2016 alone. About 40 new children with cancer are registered for treatment at the Regional Center of Children Oncology and Hematology in Cherkasy each year. The medical equipment to be procured through this grant is necessary so that these children receive proper medical treatment including administration of numerous cycles of high-dose poly-chemotherapy via accurate chemotherapy infusion syringe pumps and volumetric infusion pumps, without overdosing them, which can result in severe and painful side effects and death.

The need was identified by several of the oncologists and physicians who treat children at the Regional Center of Children Oncology and Hematology in Cherkasy, including Dr. Oksana Gluhareva, Head of the Regional Center of Children Oncology and Hematology and Chief Hematologist of Childhood in the Cherkasy Region; Dr. Olha Paliychuk, Oncologist and long time consultant to the Regional Center of Children Oncology and Hematology in Cherkasy; Dr. Anna Samokhval, Pediatric Oncologist; Dr. Mykhailo Petrenko, Pediatric

How were members of the benefiting community involved in finding solutions?

The only members of the "benefiting community" are the minor children diagnosed with cancer and cancer related diseases in the Cherkasy Oblast, and while they will clearly benefit by having this life saving medical equipment available to the treating oncologists and physicians at the Regional Center of Children Oncology and Hematology in Cherkasy, these minor children do not possess the skills necessary to determine the solution to their serious medical problems.

How were community members involved in planning the project?

Given the current conditions in the Ukraine, the extremely limited financial support available from the Ukraine government falls well short of the cost of this much needed medical equipment. This grant is needed immediately as the present equipment is outdated and unreliable, and prevents the treating physicians from administering the aggressive chemotherapy needed by many of the children at the facility at the precise dosages required.

Dr. Olha Paliychuk, Oncologist and long time consultant to the Regional Center of Children Oncology and Hematology in Cherkasy, is a member and current President of the Rotary Club of Cherkasy, the Host Rotary Club, and she brought the need for this project to the members of her Club, as well as to International Club members during and since the Rotary International Convention in Atlanta in 2017.

Project implementation

#	Activity	Duration
1	Identify Children in Cherkasy with cancer or cancer related diseases	Ongoing
2	Evaluate if chemotherapy is recommended for children diagnosed with cancer or cancer related diseases	Ongoing
3	Develop chemotherapy treatment regimens for children requiring chemotherapy	Ongoing
4	Implement the chemotherapy treatment regimens for children requiring chemotherapy utilizing the medical equipment and supplies purchased through this grant	Ongoing
5	Collate data from the foregoing activities	Ongoing
6	Prepare periodic reports based on the collated data	Ongoing

Will you work in coordination with any related initiatives in the community? Yes/No

No

Please explain. Are local initiatives not addressing these needs? Or, if they are, why did you decide not to work with them?

No local initiatives exist to address the need for new and updated medical equipment.

Please describe the training, community outreach, or educational programs this project will include.

Training in the proper operation and maintenance of the medical equipment purchased through this grant will be provided by Braun representatives, Providian Medical, for a period of three years from purchase directly to the personnel who will use and maintain the equipment at the Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine.

There is no training required or to be provided to others.

Host and International Rotarians will work together to prepare and distribute brochures in local language and/or provide public presentations regarding the warning signs of childhood cancer, the benefits of early diagnosis, and treatment options available at the Regional Center of Children Oncology and Hematology in Cherkasy for childhood cancer and cancer related diseases as a result of this Rotarian project. The Rotary International logo and/or participating Rotary Club logos will be incorporated into printed materials to improve awareness of Rotary International and the participating Rotary Clubs to pique the interest of potential new Rotarians.

How were these needs identified?

Given the current conditions in the Ukraine, the extremely limited financial support available from the Ukraine government falls well short of the cost of this much needed medical equipment. This grant is needed immediately as the present equipment is outdated and unreliable, and prevents the treating physicians from administering the aggressive chemotherapy needed by many of the children at the facility at the precise dosages required.

Dr. Olha Paliychuk, Oncologist and long time consultant to the Regional Center of Children Oncology and Hematology in Cherkasy, is a member and current President of the Rotary Club of Cherkasy, the Host Rotary Club, and she brought the need for this project to the members of her Club, as well as to International Club members during and since the Rotary International Convention in Atlanta in 2017.

What incentives (for example, monetary compensation, awards, certification, or publicity), will you use, if any, to encourage community members to participate in the project?

Host and International Rotarians will work together to prepare and distribute brochures in local language and/or provide public presentations regarding the warning signs of childhood cancer, the benefits of early diagnosis, and treatment options available at the Regional Center of Children Oncology and Hematology in Cherkasy for childhood cancer and cancer related diseases as a result of this Rotarian project. The Rotary International logo and/or participating Rotary Club logos will be incorporated into printed materials to improve awareness of Rotary International and the participating Rotary Clubs to pique the interest of potential new Rotarians.

List any community members or community groups that will oversee the continuation of the project after grant-funded activities conclude.

None. Training in the proper operation and maintenance of the medical equipment purchased through this grant will be provided for personnel who will use or maintain the equipment at the Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine.

Budget

Will you purchase budget items from local vendors? Yes/No

Yes

Explain the process you used to select vendors.

It is well known in the medical field that Braun is a manufacturer of high quality and precision medical equipment, including the types of equipment required to implement this project and to be purchased with funds from this grant. There are equipment manufacturers in the Ukraine, such as Med Technika, however, it is known that the equipment manufactured in the Ukraine is of substantially less quality and is unreliable.

The Regional Center of Children Oncology and Hematology in Cherkasy currently owns and operates other equipment manufactured by Braun, and Braun is the only manufacturer of certain equipment needed for this project which has representatives located in the Ukraine. Specifically, Braun is the Only manufacturer to

provide Space stations which allow up to four infusion pumps to simultaneously deliver chemotherapy drugs to a patient through a single catheter, so the child is not subjected to multiple injection sites or extended back to back dosage regimens. Braun is also the Only manufacturer of the Space PGA kits, i.e., Patient Controlled Analgesia, which permits on-demand intravenous administration of narcotic analgesics which are prescribed for terminally ill children who require palliative therapy and pain management in the later stages of the disease. The Braun Space PGA kits will allow a child or parent to administer narcotic analgesics immediately as needed, thereby eliminating the need for subject the child to delay in obtaining relief via painful intramuscular injections every few hours.

Furthermore, the Regional Center of Children Oncology and Hematology in Cherkasy currently has a service contract in place with Braun, through Providian Medical, to service other Braun equipment at the facility, so it is believed best to continue with the existing service contract. The equipment purchased from Braun with the funds from this grant includes three years of warranty service, as well as three years of on-site training at no additional cost, as stated on the Commercial Offer from Providian Medical accompanying this application. In addition, Providian Medical has agreed to donate two additional Braun pumps at no cost to the Regional Center of Children Oncology and Hematology in Cherkasy, as also stated in the Commercial Offer from Providian Medical accompanying this application.

A further and significant advantage of Braun infusion pumps in Ukraine, in comparison with pumps from other manufacturers, is the availability of a wide variety of consumable supplies in sufficient quantities in Braun's warehouses in the Ukraine, i.e., PVC systems, polyurethane systems, light protected systems, which are necessary for work with chemotherapeutic and cytostatic medications. Braun has an established history in Ukraine for a long time, and throughout this time, Braun has assured the availability of the necessary consumable supplies. It should be noted that Braun is the only supplier in Ukraine, which has consumable supplies made of various materials that satisfy the entire spectrum of end user needs.

Lastly, pumps manufactured by Braun are listed in protocols for clinical trials of up-to-date medications. It is of great importance, that Braun pumps contain a set of functions aimed at minimizing medical staff errors: a list of medications, dose calculation, various forms of medication administration (trapezoidal, multi-dose, programmed, etc.) which are critical for the infusion of chemotherapeutic medications at the precise dosages required.

Providian Medical is the distributor of Braun equipment in the Ukraine, so bids were solicited from Providian Medical for the equipment required to implement the present project from several equipment manufacturers. Labline LLC is the authorized representative of another German company, Fresenius Kabi, a supplier of certain supplies required for the successful implementation of this project, and attached is the bid solicited from Labline LLC for the necessary supplies.

Did you use competitive bidding to select vendors? Yes/No

No

Please explain.

See above.

Please provide an operations and maintenance plan for the equipment or materials you anticipate purchasing for this project. This plan should include who will operate and maintain the equipment and how they will be trained.

Training in the proper operation and maintenance of the medical equipment purchased through this grant will be provided by Braun representatives from Providian Medical for personnel who will use or maintain the equipment upon delivery of the equipment to the Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine. Furthermore, training will be provided to new personnel as needed by representatives of Braun for a period of three years after the equipment is purchased. Any subsequent training will be provided by personnel who trained directly by Braun representatives.

Describe how community members will maintain the equipment after grant-funded activities conclude. Will replacement parts be available?

N/A - See Above.

If the grant will be used to purchase any equipment, will the equipment be culturally appropriate and conform to the community's technology standards? Yes/No

Yes

Please explain.

As stated above, it is well know in the medical field that Braun is a manufacturer of high quality and precision medical equipment, including the types of equipment required to implement this project and to be purchased with funds from this grant. Specifically, the equipment selected form Braun will allow the treating physicians to administer the aggressive chemotherapy needed by many of the children at the facility at the precise dosages required.

After the project is completed, who will own the items purchased by grant funds? No items may be owned by a Rotary district, club, or member.

The equipment and supplies purchased with funds from this grant will be owned one-hundred percent by the Regional Center of Children Oncology and Hematology in Cherkasy, Ukraine.

No Rotarian, Rotary Club or Rotary District shall have any ownership in the equipment or supplies purchased with funds from this grant.

Funding

Have you found a local funding source to sustain project outcomes for the long term? Yes/No

No

Will any part of the project generate income for ongoing project funding? If yes, please explain.

No.

Authorizations

Authorizations & Legal Agreements

Legal agreement

Global Grant Agreement

I confirm and agree to the following:

1. All information contained in this application is, to the best of our knowledge, true and accurate.
2. We have read the Terms and Conditions for Rotary Foundation District Grants and Global Grants ("Terms and Conditions") and will adhere to all policies therein.
3. The grant sponsors ("Sponsors") shall defend, indemnify, and hold harmless Rotary International (RI) and The Rotary Foundation (TRF), including their directors, trustees, officers, committees, employees, agents, associate foundations and representatives (collectively "RI/TRF"), from and against all claims, including but not limited to claims of subrogation, demands, actions, damages, losses, costs, liabilities, expenses (including reasonable attorney's fees and other legal expenses), awards, judgments, and fines asserted against or recovered from RI/TRF arising out of any act, conduct, omission, negligence, misconduct, or unlawful act (or act contrary to any applicable governmental order or regulation) resulting directly or indirectly from a Sponsor's and/or participant's involvement in grant-funded activities, including all travel related to the grant.

4. The failure of the parties to comply with the terms of this Agreement due to an act of God, strike, war, fire, riot, civil unrest, hurricane, earthquake, or other natural disasters, acts of public enemies, curtailment of transportation facilities, political upheavals, acts of terrorism, or any similar cause beyond the control of the parties shall not be deemed a breach of this Agreement. In such an event, the Agreement shall be deemed terminated and the Sponsors shall refund all unexpended global grant funds within 30 days of termination.
5. TRF's entire responsibility is expressly limited to payment of the total financing amount. TRF does not assume any further responsibility in connection with this grant.
6. TRF reserves the right to cancel the grant and/or this Agreement without notice upon the failure of either or both of the Sponsors to abide by the terms set forth in this Agreement and the Terms and Conditions. Upon cancellation, TRF shall be entitled to a refund of any global grant funds, including any interest earned, that have not been expended.
7. The laws of the State of Illinois, USA, without reference to its conflicts of laws principles, shall govern all matters arising out of or relating to this Agreement, including, without limitation, its interpretation, construction, performance, and enforcement.
8. Any legal action brought by either party against the other party arising out of or relating to this Agreement must be brought in either, the Circuit Court of Cook County, State of Illinois, USA or the Federal District Court for the Northern District of Illinois, USA. Each party consents to the exclusive jurisdiction of these courts, and their respective appellate courts for the purpose of such actions. Nothing herein prohibits a party that obtains a judgment in either of the designated courts from enforcing the judgment in any other court. Notwithstanding the foregoing, TRF may also bring legal action against Sponsors and/or individuals traveling on grant funds in any court with jurisdiction over them.
9. This Agreement binds and benefits the parties and their respective administrators, legal representatives, and permitted successors and assigns.
10. If any provision of this Agreement is determined to be illegal, invalid or unenforceable, the remaining provisions of this Agreement shall remain in full force and effect.
11. Sponsors may not assign any of its rights under this Agreement except with the prior written consent of TRF. Sponsors may not delegate any performance under this Agreement without the prior written consent of TRF. Any purported assignment of a Sponsor's rights or delegation of performance without TRF's prior written consent is void.
12. TRF may assign some or all of its rights under this Agreement to an associate foundation of TRF. TRF may delegate any performance under this Agreement to an associate foundation. Any other purported assignment of TRF's rights or delegation of performance without the Sponsors' prior written consent is void.
13. Sponsors will comply with all economic and trade sanctions, including those implemented by the Office of Foreign Assets Control (OFAC) of the United States Department of Treasury, and will ensure that they do not support or promote violence, terrorist activity or related training, or money laundering.
14. This Agreement constitutes the final agreement between the parties. No amendment or waiver of any provision of this Agreement shall be effective unless it is in the form of a writing signed by the parties.
15. Rotary International (RI) and TRF may use information contained in this application and subsequent reports to promote the activities by various means such as The Rotarian, Rotary Leader, rotary.org, etc. Unless indicated otherwise in writing, by submission of the photos, the parties hereby grant to RI and TRF the worldwide right to publish and use the photos, including but not limited to, in RI and TRF publications, advertisements, and Web sites and on social media channels and to license use to others, including, but not limited to, media outlets and its partners and through RI's online image database, for the purposes of promoting Rotary. By submitting the photos, the parties represent and warrant that all persons appearing in the photos have given their unrestricted written consent to use their likenesses and to license use to third parties.

16. The Sponsors agree to share information on best practices when asked, and TRF may provide their contact information to other Rotarians who may wish advice on implementing similar activities.

17. The Sponsors will ensure that all individuals traveling on grant funds have been informed of the travel policies stated in the Terms and Conditions and have been made aware that they are responsible for obtaining travel insurance.

Primary contact authorizations

Application Authorization

By submitting this global grant application, we agree to the following:

1. All information contained in this application is, to the best of our knowledge, true and accurate, and we intend to implement the activities as presented in this application.
2. The club/district agrees to undertake these activities as a club/district.
3. We will ensure all cash contributions (as detailed in the grant financing) will be forwarded to The Rotary Foundation (TRF) or sent directly to the global grant bank account after Trustee approval of the grant.
4. Rotary International (RI) and TRF may use information contained in this application to promote the activities by various means such as The Rotarian, the RI international convention, RVM: The Rotarian Video Magazine, etc.
5. We agree to share information on best practices when asked, and TRF may provide our contact information to other Rotarians who may wish advice on implementing similar activities.
6. To the best of our knowledge and belief, except as disclosed herewith, neither we nor any person with whom we have or had a personal or business relationship are engaged, or intend to engage, in benefiting from TRF grant funds or have any interest that may represent a potential competing or conflicting interest. A conflict of interest is defined as a situation in which a Rotarian, in relationship to an outside organization, is in a position to influence the spending of TRF grant funds, or influence decisions in ways that could lead directly or indirectly to financial gain for the Rotarian, a business colleague, or his or her family, or give improper advantage to others to the detriment of TRF.
