

Our Host Club

Beza Gezaw, President

Dayur Nur, GG Committee

The host club, Rotary Club of Addis Ababa Central-Mella, (RC CM) has had previous experience with providing a Rotary global grant water site project. **This club was the Host Club in 2016-2017 when they were partners to provide 12 water sites in western Ethiopia. They bring a background of experience with the problems faced by rural families without access to clean water, and with experience of working with the Rotary International grant process.** With this grant the RC CM has two foci. One focus is to connect the Rotary grant with all its requirements for work and completion according to the agreements and Rotary principles. This task connects the ongoing work in the field with the organizations working with the International club so that all financial reports, monitoring, and evaluation are successfully completed in a timely matter. Funds will be disbursed with verification of bids and expenses by the Host Club.
