

Global Grant Project

Supporting Georgian Diabetic Children with special equipment

Children with blood diabetic need special care, they can't take care by their own.

Many fatal cases are when parents missed moment when blood sugar increased without monitoring it. To avoid such situation we Rotary Club – Rustavi International would like to improve monitoring Blood Sugar level for parent of

children age from 1-11 years old, providing Abbott Freestyle Libre 2 Censors and Scanners.

Our focus are Socially vulnerable families:

Number of Beneficiaries: 25

Numbers of Scanner Needed: 25 Units

Numbers of Sensor needed for 12 Month: 650 Units

Funds Needed:

#	Description Of Product	Quantity	Unit Cost USD	Total cost USD
1	Abboott Freestyle Libre 2 Sensors	25	73	1825
2	Abboott Freestyle Libre 2 Scanners	650	73	47450
			Sub Total USD:	49275

We are cooperating with Ministry of Health to hand over and train parents...
