

HIS ROYAL MAJESTY OLOZA OF UGBODU

October 31, 2019.

The President,
Rotary Club of Asaba,
Asaba, Delta State.

Sir,

APPEAL FOR A WATER PROJECT IN UGBODU

We wish to once again express our profound gratitude for the recent donation of books to our Secondary School, Ugbodu Secondary School.

Once again, we also wish to appeal to your philanthropic commitments to kindly alleviate our hardship in sourcing potable water by assisting us with a water project.

This project would provide potable water for the people of Ugbodu, who depend on rainwater harvested off mostly rusty roof during the rainy season, and have to walk many kilometers every day during the dry season to fetch water from a stream in which nearly all conceivable activities involving water are undertaken.

As we await your anticipated positive response, please rest assured of our continuing goodwill and high regards.

Yours fathfully,

HRM Ayo Isinyemeze.
