What is WASH In Schools?

**WATER.
SANITATION.
HYGIENE.
EDUCATION.
LITERACY.**

A Guide to **WASH** in Schools

WASH In Schools is oriented towards sanitation and hygiene improvement, building adequate bathrooms and latrines, and providing new and better options for waste management in order to create healthier and sustainable water supply systems.

Train teachers to develop and implement a syllabus that involves and inspire students, empowering children and teenagers to become change agents. As students share new hygiene practices with their siblings, parents, and other family members, the community begins to adopt new and healthier behaviors at home. Enabling the entire community to enjoy better health.

Rotary Supervision in WASH schools successfully performed!

COMMUNITY'S MESSAGE TO ROTARY

“WASH project has improved water service and bathrooms for all boys and girls...”

Daniel Antonio Velis González

Director of **Ingeniero Orlando Mauricio Recinos** School

Municipality of Jicalapa

“...parents are also beneficiaries from this nice project because their children no longer get sick and attend to all their classes”

Daniel Antonio Velis González

Director of **Ingeniero Orlando Mauricio Recinos** School

Municipality of Jicalapa

“Besides remodeling the bathrooms, Rotary build a menstrual bathroom now used by the girls and we are able to provide sanitary napkins...”

Carlos García

Director of **Caserío Corinto** School

Municipality of Chiltiupán

“We're grateful with Rotary for the creation of the dinning room. The children besides for enjoying their meals, also use it as library to do their homework.”

Carlos García

Director of **Caserío Corinto** School

Municipality of Chiltiupán

Agenda

- ¿What is WASH In Schools?
- WASH In Schools Summary
- Global Grant Execution
- Transformation of 3 Schools
- **Lessons Learned**

Lessons learned and recommendations

- School with access to water (independent of which source type availability)
- Good attitude towards project from:
 - Municipality
 - School Management Committee
 - Student's parents
- Due to laws in El Salvador, schools must comply with having a School Management Committee
- This project offers direct and active participation of Rotary members
- Start project with Club's own resources
- Customize ROTARY INTERNATIONAL's documentation to local environment
- Rely on Rotary Clubs that have more experience implementing the WASH In Schools projects
- Rely on institutions that are able to provide knowledge and resources to the project (e.g. FOMILENIO, UNICEF, etc.)
