Dear Rotarians,

Christian Community Action thanks you for supporting one of our most significant endeavors, Youth in Motion. Youth in Motion was established for the purpose of advancing STEM education to Title 1 student.

STEM (Science, Technology, Engineering and Math) will provide an opportunity to deliver STEM experiences through hands-on learning.

STEM will expose children to a world where they will discover their inner scientist and become tomorrow's innovator, engineer, scientist or educator.

STEM will inspire children who do not currently see themselves as high school graduates, no less college students.

STEM will provide the education awareness that can lead to transformation change for families and communities.

STEM will open a world of dreams: dreams that can become reality.

Thanks to your generous donation of time, talent and treasure we now have hands on exhibit of six bikes connected up to race tracks where the children will learn what is energy how does energy work and how you apply it to your everyday life.

With the additional \$ 4,545.57 from Rotary we will be able to expand our energy station and offer the children a variety of experiences.

Sincerely,

Maureen Cummings
Director of Food and Seasonal Programs

Our Mission: In the spirit of Jesus Christ, Christian Community Action ministers to the poor by providing comprehensive services that alleviate suffering, bring hope and change lives.
