

Greeley After Hours Rotary Club Blanket Project 2020-2021

The Greeley After Hours Rotary Club purchased 500 blankets to distribute to several organizations in the local area. The club is excited to share that these blankets went to nursing facilities, assisted living facilities, homeless shelter and hospice delivered in the months of December and January. Typically we would deliver the blankets to each person or at least help deliver, but due to COVID-19, we could not enter into the facilities.

We are always looking at ways to support our communities and the blanket project was no exception as all the agencies were in need not only due to the cold weather, but the effects of COVID-19. Each agency was very grateful for our donation.
