District Grant Final Report

Due April 30, 2022 – Complete at Conclusion of Project

Project Title: Germ-free Water Safety Systems

Rotary Club of: Laughlin

Person Completing this form: Mike Conner

Project Description

1. Briefly describe the project outcomes. What was done (in 100 words or less)? Purchased seven (7) wall mounted touchless water bottle filling stations for installation in Laughlin Jr/Sr High School (6) and Laughlin Public Library (1) for the purpose of providing clean, germ-free filtered drinking water for public consumption. This effort is contributing to the prevention of disease spreading illness.

When (dates) and where (city, state and country) did project activities take place?
Between September 2021 and January 2022; Laughlin, NV, USA

Who were the beneficiaries? General public, school students, administrators, teachers and librarians.

2. How many Rotarians participated in the project? Six (6) of the Clubs nine (9) members.
3. What did they do? Please give at least two examples. Participated in the decision-making process of how many units to purchase and assisted in the delivery of the units to the school and library; the installation was performed by maintenance personnel at the two facilities.
4. How many non-Rotarians benefited from this project? +- 400 at school daily and +- 50 at public library daily.
5. What are the expected long-term community impacts of the project? Eight to ten years of germ-free water, depending upon good maintenance practices due to the “touchless” features of the units.

6. If a cooperating organization was involved, what was its role? The BHHS Legacy Foundation and River Fund, Inc, both partnered with us on a single invoice purchase. They purchased nineteen (19) of the same units for schools in Mohave County, Arizona and we purchased our first two (2) units.
