More for you Ellen! Wow!

Lmk how I can help

## Computers Center for Elementary Schools

# CLUB ROTARIO AGUA PRIETA

Club Rotario 2021-2022

Calle 10 y Agua Prieta, 5 84200

#### GOAL

- Create at 2 Computer Centers for two elementary schools
- Provide 5 computers with HD monitors and accessories
- Schools will provide internet access
- Our club will provide the computers, do the setup and install all needed software for them.
- This will allow our kids to have more options for a better education

#### DEVELOPMENT

We got positive response from 2 schools to support the project.

- We decided to provide better equipment, with longer life-cycle
- We had problems with Stock and prices increases, impacted by the Global Supply Chain and processors or However, we were able to get proper equipment and pricing.
- We decided to get bigger size monitors, to increase the experience and provide better conditions (23.8", H
   Full HD)
- We branded the Computers' Operating system and desktop, to reflect Rotary's support of the project.
- We added physical security options, to prevent theft and unproper use.
- Expected life of the equipment usage is 10 years, with optimal conditions and usage.
- We will provide basic training for students (and Spanish branded documentation) as well as mid-level traini
   Teachers and administrators. Also, we commit to support their technical issues for the first year

#### INVESTMENT

We received a check for 5,000 USD. We got a very good exchange rate for pesos of 21 (105,000 pesos).

Purchased 10 Stick computers in Amazon MX (allowed us to save 16% taxes – 11,000 pesos, also eliminating I expenses).

Purchased 10 23"8 inches monitors, with HDMI (required as it the only interface for the Stick Computer) and HD, brand Lenovo

Purchased 10 Keyboard/mouse kits and 10 security cable locks (to prevent theft)

Configuration and setup was done by us. Upgraded to Windows 11 for free.
