Hi James,

I am attaching below screen shots of the cost of 5 refurbished computers. I'm hoping to buy the computers and monitors through TechSoup--which provides refurbished computers below retail to other nonprofits. What they have in stock changes regularly, so I won't know the exact cost (or make/model) until I go on-line to purchase. There is also a chance that I cannot use Techsoup and will have to buy retail-that is why I put in the grant 4-6 computers to give me some flexibility. But, we can put in the grant 5 computers. Please let me know if you need further information.

Exactly what I need. There is flexibility in the final report. Do I need to remove software from the requirement list?

Also, please copy Shannon on our thread going forward.
