Rotarian Amir Asadi
Chair, International Service Projects
District 7230

Dear Rotarian Amir,

On behalf of the Rotary Club of Pétion-Ville, I would like to thank your Club as well as the different sponsors that helped raise funds to send the water filters and Luminaid solar lanterns to Haiti for the benefit of our local communities.

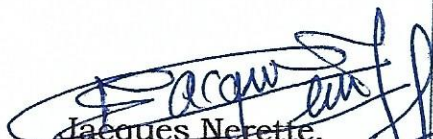

This is to confirm that our Club had, in a first phase, received over 200 water filters that we had the pleasure to distribute to the village of Sarazin population and to some other institutions, along with at the time of distribution, visiting Rotarian Jim Kushner from your Club.

Due to many delays with DHL and customs, unfortunately, we did not get the lanterns delivered in time to be distributed when Rotarian Jim was still in Haiti.

The good news is that we now have the lanterns in our possession and our Disaster Chair and President Elect Karyne is organizing a distribution this coming week.

We will share further details, and photos.

Yours in Rotary.

Jacques Nerette,
President 2021-2022
