

Mission II Haiti, Final Report – August 30th, 2023

E-mail summary from Roger Hoffman:

We purchased 20 complete pumps for \$350 each from India for a total cost of \$7,000. (Invoice on website). We finally received our shipment in January of 2023. All the pumps are now secure on Mission II Haiti compound. We thank Dawn Rotary and 5630 for the support they have given Mission II Haiti through the years. Your generosity has helped to provide clean water for thousands of Haitians.
