

Presentation of Weather Station Kits and Climate Change Kits at Rotary Club of Orange County LA Foundation Treasurer Cathy Cannioto and Club President Beth Fujishige with Engineering Club Members Hector Sanchez and Jassmin Bravor

Club visit/field trip (by most active club members due to space limitations) to the Starbase Naval Air Station, Los Alamitos.

Tour of Galaxy room replicating Mars landing in which programmable ROVER vehicles similar to the ones the students will be building back on campus.

Presentation regarding the real life applications of the student projects with staff of the Naval Air Station from guided missiles to the production and testing of weaponry.

Also discussed space debris and the congested environment now encircling the earth.
