Hello dear Conrad!

I am very pleased to announce that we have successfully completed our next project.
I have collected the necessary documents that would fully describe the progress of our project.
Initially, I send a receipt from the bank, which shows the amount of receipt of your payment, which amounted to \$12,985.
Then, we exchanged dollars for national currency, in national currency it turned out to be 539,396 UAH.
And we already paid for goods for two suppliers using national currency. According to the invoices, we paid for the goods in the amount of 539,396 UAH in national currency (attached invoices).
After we delivered the things to the territorial communities, we received Certificates of delivery and acceptance of things. (Certificates of delivery and acceptance are attached).
During the Grant, I collected all the necessary documents and a video and photo report.
I'm sending photos and videos now so you can have an idea of the work we've done together.
I am very grateful to you that thanks to one person, namely you, how many people received benefits and were able to make life easier during the war.
Please clarify who exactly we should thank in the publication about our Grant, I indicated District 5790, should I add any information, please clarify. In touch.

Best wishes, Iryna
