Project Summary: Short sentence to explain the project. This project description should provide information about what activity is being funded, who is benefitting from the activity, and the name of the location of the project or activity, including the city or country. For example, "Five computers provided to schools for children in Addis Ababa, Ethiopia."

Scholarship funds to pay for the care for special needs students whose families cannot cover the cost of their care.

Project Description: You should include what needs have been identified, how the project will meet those needs, and the timeline for your project. Please specify what the project funds will be used for and how club members will be involved.

We have two students, Carlos Castillo, and Kysara Davis whose mothers can only pay \$250 a month. Our fee was \$500 a month. You have provided a scholarship for 2023 and 2024 of \$4,000, which \$3000 has been used for Carlos Castillo and \$1000 for other students. Our fee is now \$550 a month and \$4000 would cover about 13 months of scholarship at \$300 per month.

The club member who will be involved is Kent Hopkins who is also the CFO & Treasurer for the clubhouse. However the Rotary also participates in serving activities during the year.

Total Budget: _____

Club Contribution: _____

District Contribution (DDF): _____
