- 250 kids per school for the next 15 years

Purchase:

- 4 tractors
 - 4 plows for tractor
 - 4 hay balers

Rotary Clubs La Paz Balandra & La Paz Guaycura
Need your support to grow the
program to 4 Agricultural Technical
Schools in Baja California Sur., Mexico

Poor communities in Mexico need to implement highly cooperative communities called "SCHOOL UNITS OF PRODUCTION" through the students of agriculture at the level of Basic Education

4 Agricultural Technical Schools
-tractors no longer work - more
than 45 years old

Agricultural students work the land by hand and their knowledge is limited due to lack of access to modern technology

Students are exposed to accidents, animal bites and intense heat, with no possibility of progress

Rotary has implement a program at one school.
Students increased knowledge and opportunity.

This school is self-sustaining, thanks to the support of Rotary. Now their agricultural production is sold in their same community.

Funding Goal-

Grow kids ability to positively affect their future

\$124,500 is ended
the school will buy:

- 4 tractors
 - 4 plows for tractor
 - 4 hay balers

And enhance their program
