

FULLFILLMENT OF THE PRIORITY NEEDS OF BENEFICIARIES:

The project will fulfill beneficiary needs by first addressing their major problems of the project and as well making sure that the major objectives of food security and income is achieved for the farmers, their families, deaf children and other children benefit.

The major problems which are to be faced may include, which also the project will address;

1. Procurement of improved fertilizers and improved seeds on time
2. Farmers use of proper farming techniques and methods
3. Make sure the tractor is always used properly and maintained
4. Organizing farmers to work together to achieve better production
5. Unpredictable weather patterns
6. Clearing and preparation of land on time.
7. Overcoming termites and ants.
8. Removal of tree stumps and other obstacles in the land.
9. Making sure farmers save part of their income to the cooperative and to be available to them in form of loan for procuring seeds, fertilizers and fuel for farming, weeding and harvest to ensure sustainability and continuity.
10. Make sure farmers and AAI staff pay their loans timely
11. Make sure Farmers and families are actually benefiting.
12. Making sure AAI staff and farmers are trained and ready to work and teach others every season.
13. Making sure agriculture support service from Mayuge district is always there and available

BENEFICIARIES PARTICIPATION AND CONTRIBUTION:

During the implementation of the project, beneficiaries will contribute the following:

1. Unskilled labor
2. Local tools and materials that might be required.
3. Land for the cultivation.
4. Security over the farms.
