Armenia

Dear gentlemen,

Aware of your recognition and social sensitivity in your work with communities, and as a representative of the Gustavo Matamoros D Costa educational institution, I address you to express the need to conduct hearing screening for some students of the school who, due to economic constraints, do not have access to such important services. I appreciate your kind and gracious attention.

CLUB ROTARIO ARMENIA PALMA DE CERA
Health Committee
Armenia, Quindío

Respected gentlemen,

Knowledgeable about your social recognition and sensitivity in community work, from the Municipal Health Secretariat we are driven by the immense need to undertake educational actions with various sectors of the society, particularly in the areas of health promotion and prevention.

We casually learned about your interest in initiating an educational project to raise awareness among various health entities and educational communities about the importance of understanding the route and protocols for infant hearing screening.

In this regard, the Health Secretariat wishes to support you in addressing the human resources of various organizations to carry out education actions on early detection of hearing impairment in the pediatric population. We commit to supporting and implementing the protocols provided by the project you will undertake once its execution is carried out.

Thank you for your interest, and we reiterate our support on behalf of the community.

Sincerely,

CESAR AUGUSTO RINCON ZULUAGA
Municipal Health Secretary

Subject: Expression of interest

Kind regards,

Knowledgeable about the social work you have carried out with different populations in the City of Armenia, we would like to inform you that the Colombian Institute of Family Welfare ICBF, Quindío, section, endorses the agreement to implement the hearing screening project in the institutional early childhood units in the City of Armenia.

Therefore, the intervention of the units is authorized, subject to prior coordination with the Technical Assistance Group Coordinator.

The project implementation will take place during the 2024 period, aiming to benefit 5,203 boys and girls attending daycare homes, child development centers, and social gardens.

Sincerely,

ADRIANA ECHEVERRI GONZALEZ

Director - Principal
ICBF Quindío Region
