c.u.r.e. cargo

WHAT IS PROJECT C.U.R.E'S CARGO PROGRAM?

C.U.R.E. Cargo is the program through which Project C.U.R.E. distributes donated medical equipment and supplies via cargo containers to health care facilities in medically under resourced communities around the world.

Thousands of people die every day in the under-resourced world because local hospitals and clinics don't have the medical supplies and equipment needed to save lives in their communities. It is Project C.U.R.E.'s mission to change that. Since 1987, we've worked in over 135 countries across the world – and right here at home, providing PPE and other vital medical supplies during the COVID-19 pandemic.

WHAT IS THE PROCESS FOR THE C.U.R.E. CARGO PROGRAM?

NEEDS ASSESSMENT STUDY

- Before we deliver a shipment of medical supplies and equipment, Project C.U.R.E. sends an assessor to visit the recipient health care facility to conduct an on-site needs assessment. This ensures us every container delivered will meet the specific needs of the hospital/clinic.
- The needs assessment deposit fee must be received before the assessment is planned and any travel arrangements are secured.

ASSESSMENT VISIT

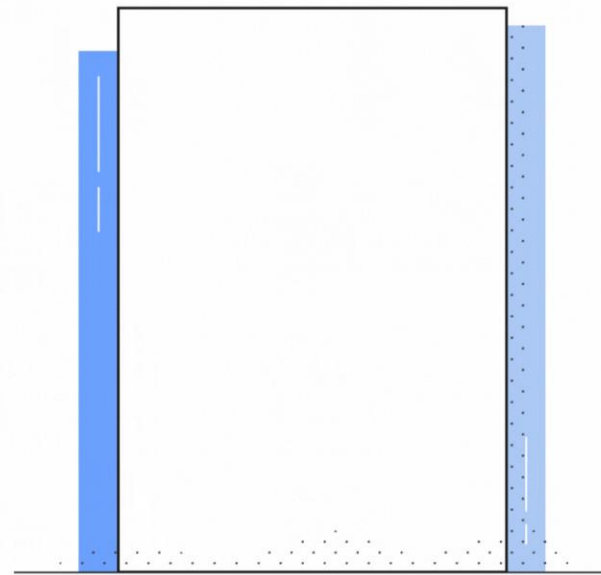

During the Needs Assessment Visit, the Project C.U.R.E representative will determine the following:

- The specific needs of the medical facilities
- The ability of the recipient facility to install, use, and maintain the equipment, i.e. stable electricity
- The assurance that the donations will be properly used to aid those in need
- The relationship between the recipient and government and customs officials to facilitate the importation of the goods
- The logistics of delivery

ASSESSMENT REPORT

After the needs assessment is concluded, the partner will receive a copy of the final report.

SHIPPING INVOICE

- Before the packing list is created by the Operations Team, an invoice for the cost of shipping the container is issued.
- Once payment is received, the Operations Team will create a unique packing list based upon the results of the assessment.
- The partner will have an opportunity to review the list and provide feedback.

PLANNING, LOADING, AND SHIPPING

The Operations Team utilizes the report from the assessment to develop a detailed list of items to include in the container.

- Once the packing list is reviewed and approved by the partner, the Operations Team schedules loading and shipping dates.
- Details of the shipment, including all documents, are sent to the partner after the container leaves a Project C.U.R.E warehouse.

Shipper: Project C.U.R.E.

Sample Manifest

The goods listed on this sample manifest are examples of what Project C.U.R.E. can provide. Each planned manifest will be customized to the needs of the recipient facilities and take into account warehouse availability.

Product Code	HS Code	Description	Transformer Needed (only for 220-240V countries)	Number Ordered
SAMPLE.99				
101	3926100000	Office Supplies, ALL		2
201	4901100000	Educational Models/Anatomy and Nursing Drug Handbooks		1

SUPPLY & EQUIPMENT PROCUREMENT

U.S. Warehouses

SUPPLY & EQUIPMENT PROCUREMENT

New and overstocked medical supplies and equipment are donated by U.S. manufacturers, wholesale suppliers, hospitals, clinics, and individuals.

- Project C.U.R.E. collects these items and brings them to a distribution center where they are inspected and sorted.
- All equipment donations are tested to ensure they are fully functional and check to confirm all supporting parts are included.

FUNDING

For all our container projects, a funding partner is necessary. The partner is responsible for all fees associated with the following:

- Needs Assessment Fee - \$4,000
 - Hosting the assessment representative while in-country
- Shipping Fee - \$25,000(est) to nearest shipping port (*door-to-door will be an additional fee*)
 - Includes our \$13,500 project fee
 - Transformers: \$2,000
 - GIK: \$300,000-\$400,000
- Customs Clearance Fees - ??

TIMELINE

- **8-10 months for container arrival**
 - Needs Assessment: 3 months(+)
 - Packing list creation: 1 month
 - Partner review and approval: 1 month
 - Schedule container loading date: 1 month
- Ocean transport
 - Central Africa: 75-105 days
 - East/West Africa: 45-75 days
 - South East Asia: 20-45 days
 - Eastern Europe: 30-60 days
 - Central America: 7-30 days
 - South America: 7-30 days

- *Some countries require an inspection of the container which could delay delivery by several weeks.*

FEEDBACK

PHOTOS

Please submit photos and videos of container arrival and equipment installation.

IMPACT EVALUATION

Engage in a formal evaluation process approximately four months after the container has been delivered to determine:

- if the medical supplies and equipment in the container were utilized as intended.
- if the supplies had an impact on the medical practices at the facility.
